ABOUT THIS SESSION

- In this session you will see and learn how to create a tiny application in Bluemix and connect it to Connections. Learn how Bluemix can help you create applications and integrate it into your collaboration environment.

- You can see how easy it is to create a simple application, and how easy it is to implement it into Connections.

- See how an advanced application can be integrated

IBM

AGENDA

- About e-office
- Introduction Arjan & Remco
- Power of Bluemix
- Showing 3 ways to integrate Bluemix into Connections
- Application functionality
- Build the Bluemix application
- Run the Bluemix application
- Showcase “What more can be done”.
- Q&A

INTRODUCTION

IBM CHAMPION

Remco Angioni

- Senior IBM Consultant @e-office
- 20 years experience with the IBM software portfolio, from Domino till Watson.
- 6 years experience with IBM Infrastructure projects
- Experience with migrations, upgrades, security audits, performance tuning and development.

Social media:

1. Blog: https://www.angioni.nl
2. Twitter: @Angioni

Arjan Uijl

- Senior IBM Project Manager @e-office
- 22 years experience with the IBM software portfolio
- Skills: development, consultancy and project management
- Driver: discover new technologies and innovations

Social media:

1. LinkedIn: https://www.linkedin.com/in/arjanuijl
2. Twitter: @Arjan_Uijl

IBM

POWER OF BLUEMIX

With Bluemix you can:

- Store your company development code
- Use services by APIs
- Run platforms/ boilerplates
- Host your application

Unlocked in just a few minutes!

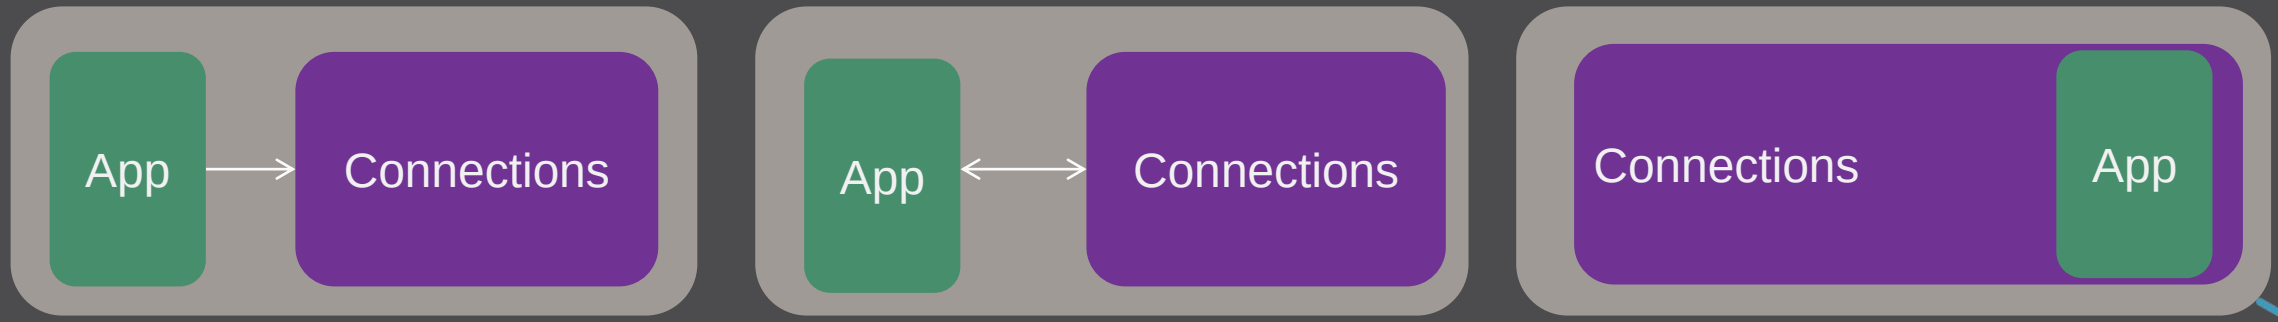
IBM

CONNECTIONS EMPOWERED BY BLUEMIX

How to enrich your Connections environment:

- Handle data by Bluemix and store in Connections
- Combine Bluemix services and make Connections users benefit
- Add Bluemix functionality to Connections



e-office
digital workspace

IBM

APPLICATION FUNCTIONALITY: PHOTOAPP

The app which will be developed and deployed on Bluemix, will be able to take a picture and store the picture in Connections Cloud with tags generated by Bluemix services.

So the power of Bluemix:

- App hosting
- Visual recognition services
- Connections APIs for storing data

SHOWCASE “WHAT MORE CAN BE DONE”: COP

Corporate Operational Procedures

COP integrates into IBM Connections. COP is a tool for employees to quickly find the right procedures, in order to take the correct decisions in a faster way. Keeping corporate procedures up-to-date and informing all employees about this, is often labor-intensive. COP offers employees a quick filter on any subject or types of procedures and find the appropriate instructions.
